

COMMUNITY DIRECTOR UPDATE

JUNE 1, 2026

COMMUNITY NEWS

I want to extend my appreciation to all the residents who participated in the Tenant Satisfaction Survey. We will review the responses and use the feedback next year as we identify housing projects. 17 respondents participated out of the 22 surveys sent to residents, making the response rate the highest of Navy sites owned by Hunt. 2 homes were vacant.

You may have noticed our usual Maintenance Tech, Doug, has been away, and vendors are handling more work in the neighborhood. Thank you for your patience as we complete the needed repairs. Please contact me, Samantha Bobbitt, for repair requests or emergencies. I will schedule repairs with vendors or do my best to assist you.

MAINTENANCE TIPS

Cooling systems will begin working hard soon to keep your home comfortable. Please keep in mind that turning down the air conditioning too far is counterproductive if it is extremely warm outside. Systems are often able to only cool 10-15 degrees below outside temperatures. Ceiling fans should be spinning counterclockwise to help push air down and cool the air for more air travel. There is a button on the side of the base to switch the fan rotation if it isn't spinning in the correct direction. Closed rooms with no air flow are more likely to mildew.

Also, please make sure the filters in your dehumidifiers in the basement are free of dirt so they are able to do their job.
